

IMPORTANT NOTICE

New: Enhanced Medela Symphony Sterile Breast Pump Kit

Starting October 2024: The Colostrum Protector will be incorporated into the Symphony® & Harmony® Breast Milk Initiation Kit. This innovative addition will simplify and improve the colostrum collection process for pump-dependent parents.

Change: the Colostrum Protector 6mL. will replace the 80 mL collection container.

Benefit: The Breast Milk Initiation Kit now has the unique capability to support the ACTIVATION of milk-producing cells and protect colostrum from loss and contamination.

Colostrum: A Bridge to Extrauterine Life

Every Drop Counts™

Protect it from loss and contamination with the **NEW Colostrum Protector**

Microbiome Support:

Colostrum creates an optimal environment for beneficial bacteria, fostering a healthy gut microbiome and long-term health.

Promotes Gut Health:

It forms a protective barrier along the gastrointestinal tract, safeguarding against infections and facilitating nutrient absorption.

Foundation for Immune System:

Colostrum jumpstarts an infant's immune system with essential antibodies and immune factors, training it to respond effectively to future challenges.

What is Changing and When

The change is executed as a flow-through conversion without impacting the product's item number or cost.

Symphony® & Harmony® Breast Milk Initiation Kit

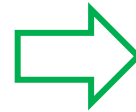

Item #67355S/101029005

Current

80 mL
container with
Lid (x2)

Enhanced

Colostrum
Protector with
Lid (x2)
